## REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

The applicant's amendment filed on 8/3/2006 overcomes the technical deficiencies and the prior art rejection. Claims 1-10 are allowed because the prior art of record fails to suggest "a current control circuit for receiving a trapezoid signal generating circuit input signal and being connected to the first current output circuit and the second current output circuit for supplying the first current output circuit with a command signal based on the input signal so that the charging current continuously increases from a first time point when the waveform control signal changes from the first level to the second level and continuously decreases after ((a)) the trapezoid signal produced and output by the capacitor reaches a predetermined reference level, and for supplying the first and the second current output circuits with the command signal so that both of the charging current and the discharging current continuously increase from a second time point when the waveform control signal changes from the second level to the first level and continuously decrease after the trapezoid signal reaches the predetermined reference level." As combined in claim 1 and "a circuit output for outputting the trapezoid signal produced by the capacitor, wherein the first current output circuit is for supplying to the capacitor a charging current having a first magnitude, and the second current output circuit is for supplying from the capacitor a discharging current having a second magnitude which is K times (K > 1) the charging current when a waveform control signal applied to the second current output circuit is at a first level, and is for stopping the discharging current when the waveform control signal is at a second level" as combined in claim 9.

## **CONCLUSION**

Any comments considered necessarily by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DINH T. LE whose telephone number is (571) 272-1745. The examiner can normally be reached on Monday-Friday (8AM-7PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, TIMOTHY CALLAHAN can be reached at (571) 272-1740.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
